

**WGC Day 2
Homework
Sheet**

DAY 2 HOMEWORK SHEET

1. **FIND** your average last frost date [here](#) and setup the corresponding calendar for your location (see links on the next page).
2. **PLAN** your winter garden by dropping the crops you want to grow into the calendar for your location.

Look up any crops not in the calendar and record the best time to plant those separately or match them with similar crops in the calendar based on their days to maturity.

3. **CELEBRATE!** Go LIVE in the [Facebook Group](#) and let everyone know:
 1. The first winter crop that you are going to plant.
 2. Your number one take-away from the class. This could be a personal “aha moment” or your favorite gardening tip or trick that was shared.
 3. Celebrate completing the second day of the challenge!

TEMPORARY PLANTING CALENDAR ACCESS

These calendars are based on your average last frost date. You can find the average last frost date for your location [here](#).

HOW TO USE IT: Watch the [Calendar Training Videos Here](#)

Jan 1 - Jan 28 South: [Setup this calendar](#)

Jan 1 - Jan 28 North: [Setup this calendar](#)

Jan 29 - Feb 25 South: [Setup this calendar](#)

Jan 29 - Feb 25 North: [Setup this calendar](#)
